See the release notes below for a summary of the major changes. The full release notes, which are rather extensive, can be read [here](#). The main highlights are the support for Microsoft Office 2013, and the 64-bit support on macOS. In a post the changes, the Wine team says that there are improvements for other games and apps, while features such as full HD support and the Direct3D command were pushed until the next release due to time constraints. Wine Reviews & Ratings My wine reviews database of over 200,000 wine ratings and tasting notes reflects the exciting range of wines in liquor stores today.
